

## **Utterly personal one-of-a-kind pieces – My Wendt & Kühn**

Personal inscriptions can be added to selected figurines from the current Wendt & Kühn collection. Each customer's requested inscription is skillfully hand painted in artistic lettering by the painters of the Grünhainichen traditional manufactory. The permissible colors and maximum number of characters are predefined so that Grete Wendt's artistic intention and integrity will be carried through even to our personalized items. This service is designed for those wishing to turn these precious figurines into individualized one-of-a-kind treasures. So that proud grandparents can welcome their newborn grandchild with a personalized stork or a child's first day of school can be commemorated with their name and the year. The resulting figurine is a timeless companion through life, one which forever keeps alive the memory of special moments and those associated with them.
