

Stylish and personal decorating – with Wendt & Kühn figurines

Standing a proud 15 cm (6 inches) tall, the birthday numbers from Wendt & Kühn allow hosts to create table decorations with a personal touch and quality. The numbers can be combined for any given occasion; each is accompanied by a figurine from the Blossom Kinder & Friends product group along with two little birds, all harmonious complementing each other while each setting its own accent at the same time. Placecard holders bearing handwritten name cards cordially welcoming each guest to their selected spot provide the ultimate finishing touch for such a festive table. Yet these fantastic numbers can do far more than beautifully decorate a table – they make a very personal gift of best wishes for a special birthday, golden wedding anniversary or even company anniversary.
